

Journal

„monticola – Zeitschrift für die Vogelwelt der Berge“ [Journal for the avifaunas of mountains] is the scientific journal of the International Association for the Ornithology of the Alps. It was founded by Ulrich A. Corti in 1966 and appears in one or two issues per year; it publishes scientific articles and short notes concerning all aspects of ornithology in and of alpine habitats and their bird species.

Membership includes receipt of each new issue.
