

## **Meetings**

The members of **Monticola** meet annually at different locations in the Alps or other mountainous regions for field trips and scientific lectures and discussions. So far, we have held meetings in Austria, Switzerland, Southern Germany, France, Liechtenstein, Slovenia, Slovakia and the regions of South Tyrol, Trentino and Friuli-Venezia Giulia. Additionally, there are special meetings on an irregular basis, e. g. on Corsica, the Spanish Pyrenees or to watch the bird migration on the Gurnigel in Switzerland.

Guests are always welcome.
